March 2015

Volume 11 – Issue 1

## *Four New Homes for Spring/Summer Occupancy*

Construction of Block 1 which consists of four new homes is well underway despite the frigid winter conditions. All homes are spoken for except the Columbine end unit which can be ready for move in June 2015. Give us a call if you want a tour through the unit. There is still time to individualize the unit by choosing finishes including flooring, millwork and colours.

### *Bayfield Mews to participate in two Spring Home & Garden Shows*

Nothing helps shake off the winter doldrums like seeing all the summer delights at a Home Show. Bayfield Mews will be showing off the project as part of the Kitchener-Waterloo Home & Garden show March 27-29 and the Bayfield Home & Garden Show April 24-26. Come and join us.

### *Visit the Model Home*

The Model Home at 32 Bayfield Mews Lane remains open through the winter months with slightly reduced hours.

The Home is fully decorated with lots of information about the models available and finish options. We also have literature about the services available and the events that take place throughout the year in Bayfield and area.

Join us for a coffee and maybe a hot cider. This is a good time to plan your move to the Bayfield Mews.

**MODEL HOME – Drop in for a visit and a coffee.  
Saturday & Sunday 1-3 p.m. or by appointment**

## Bayfield Mews again ranks high in the Annual “Soup’s On” competition

What better way to deal with winter cold than a hot bowl of soup or even more exquisite having several different soups to sample. In preparation for the Fifth Annual “Soup’s On” competition held at The Old Town Hall, The Mews held their own competition. The winning soup was Grace Koehler’s Sweet Potato and Pear entry. The Bayfield Mews went on to win third place in the People’s Choice award with Grace’s delicious soup. Winter or summer there are a lot of activities in Bayfield and at the Bayfield Mews.

## Choosing your interior finishes to customize your new home can be a fun and rewarding experience

Each of the owners at Bayfield Mews have been able to customize the interior of their homes to suit their personal tastes and lifestyle. The process can seem daunting at first with all of the small decisions to make. However with the professional staff at our suppliers the experience can be fun and rewarding as noted by two of the folks moving into Block One that is now under construction for a spring/summer occupancy.

*We have made all our selections now after visiting the Lighting Shoppe yesterday. Just wanted to let you know this whole experience was awesome and really a once-in-a-lifetime event. We really enjoyed our time with the ‘kitchen guy’ who was most knowledgeable in his field and very helpful in the decision making. Our designer at the flooring store enabled us to make the proper choices with her expert opinions, and the last on our list—the Lighting Shoppe which we found incredible and the choices overwhelming, but was able to focus on the task at hand with their help.*

John R. & Shari K.

## Check out our Facebook page to see what is happening at the Mews

Bayfield Mews now has a Facebook page where you can follow us and catch up with all the happenings at the Mews. It is a great way to stay informed and to provide your own input and comments. Just search for Bayfield Mews in Facebook and remember to “Like” us.

## Phase One is Nearly Completed Reserve Your Home Soon

While the number of homes remaining is limited, many options are available to meet your timelines for moving to the Bayfield Mews.

One unit remains in the Block 1 which is now under construction. The Columbine is an end unit and can be ready to move in spring 2015.

Construction of Block 4 will begin in the spring. Only one unit remains unreserved in that block. At this point until we complete the building permit drawings you can choose from any of our models for your new home. The block is located in one of the more desirable locations overlooking the central commons, pond and water fountain. You will also have a front row seat from your patio to watch the remote control boat races and other events.

Block 2 is our last remaining block in Phase One. The units that will be included in this block will be two Daisy models, a Columbine model, and a Rosewood.
